

YEAR 6 TERM 6 newsletter

Wednesday 4th June 2025

Welcome!

Welcome back to our final term together. We hope you had a lovely half term and a well-deserved rest. This past year has flown by, yet we still have many exciting events in Term 6.

important info

- Children will enter through the Year 6 gate. The gate will open at 8:45 and close at 8:50. The school day will end at 3:20.
- If you would like your child to walk home, please give permission on Arbor.
- Mobile phones need to be handed into the school office before entering school.
- Homework will be handed out on Friday and due in on Wednesday. Anyone who does not complete their homework or needs support will attend homework club on a Friday lunchtime.
- Contact books need to be in school daily and signed by an adult at least once a week to show the child has read and the contact book has been checked. The contact book will also be used as a form of communication.
- We encourage children to drink water in school but if your child does not like water, we will allow sugar free squash.

Exciting Dates

Separate letters will follow with more details but here are some of the events we have to look forward to during our final term:

- PGL Residential Trip,
 - Transition Days with Secondary Schools,
 - Year 6 Performances,
 - AAT Year 6 Leavers Service (only for children),
 - Year 6 vs Staff Rounders,
 - Year 6 Prom,
 - Year 6 Leavers Assembly.
- Any questions, please ask a member or the Year 6 team.

in the classroom

In English, we will be studying *War Horse* by *Michael Morpurgo*. We will continue to look at different aspects of Year 6 Spelling, Punctuation and Grammar (SPAG) to include in our writing in different genres of writing such as a narrative, biographies and poetry. Try to log onto Spelling Shed to help with learning the Year 5 and 6 spelling words and spelling rules taught in class. In our final term, we will be revisiting previous maths topics which have been taught throughout the year that have been tricky to consolidate. We will also apply knowledge to 'real life' maths including things such as budgeting. Every week, we will be looking at arithmetic to make sure we are able to use the different methods we have learnt over the past year.

During Term 6, we will continue to learn about World War 2 in history and biomes in geography. In science, we will investigate Fossils. The children will be working on themed projects which support transition to secondary school science. We also have exciting lessons in other curriculum subjects.

PE

Outdoor PE will be on **Monday afternoons** and **indoor PE** will be on a **Tuesday afternoon**.

Children need to come into school wearing their PE kits. Please refer to the uniform policy for reference of correct PE kit. Children are allowed to wear their leavers hoodies on these days.

Earrings should be removed and long hair needs to be tied back so on these days children can partake in their lessons. If your child can not join in with PE lessons, please leave a note in your child's contact book.
